Fs i6 transmitter price

FlySky FS-i6 AFHDS 6CH Transmitter and 6CH FS-IA6B Receiver. Works in the frequency range of 2.405 to 2.475GHz. This band has been divided into 142 independent channels, each radio system uses 16 different channels and 160 different types of hopping algorithm. Slim design on transmitter for easy handling! This radio system uses a high gain and high quality multi directional antenna. It covers the whole frequency band. Associated with a high sensitivity receiver, this radio system guarantees a jamming free long range radio transmission. Each transmitter has a unique ID, when binding with a receiver, the receiver saves that unique ID and can accept only data from the unique transmitter. This avoids picking another transmitter signal and dramatically increases interference immunity and safety. This radio system uses low power electronic components and sensitive receiver chip. The RF modulation uses intermittent signal thus reducing even more power consumption. AFHDS2A system has the automatic identification function, which can switch automatically current mode between single-way communication mode and two-way communication mode according to the customer needs. AFHDS2A has built-in multiple channel coding and error-correction, which improves the stability of the communication, reduces the error rate and extends the reliable transmission distance. Package included: 1 x FS-i6 transmitter 1 x FS-IA6B Receiver or FS-IA6B receiver Features: 6 channel 2.4GHz radio with telemetry capability Dual Rate/Trims/Gear/Flap/Gyro Gain Adjust/Flight Mode/Throttle Hold/Hover Pitch Switches Easy to use Programming & Navigation Buttons Supports Heli/Standard Wing/Elevon/V-Tail 20 Model Memory 8 Character Model Name Trainer port Backlit LCD Screen displays real time transmitter and receiver voltage 4 Stick Mode Selectable Optional telemetry receivers and sensors available separately Specifications: Channels: 6 Model Type: fixed-wing / glider / helicopter/ multicopter RF Range: 12.405-2.475GHz Bandwidth: 500kHz Band: 142 RF Power: Less than 20 dBm 2.4G System: AFHDS 2A and AFHDS Code type: GFSK Sensitivity: 1024 Low voltage warning: Less than 4.2V DSC port: PS2, output: PPM Charger port: No ANT length: 26mm*2 (dual antenna) Weight: 392g Power: 6V (1.5AA*4) Display mode: Transflective STN positive type, 128*64 dot matrix VA73*39mm, white backlight Size: 174*89*190mm Online update: Yes Certificate: CE0678, FCC Includes: 1x FlySky FS-i6 6 CH Transmitter 1x Manual/Quick Start Guide on CD-Rom 1x FlySky FS-IA6B (AFHDS 2A) Write a review The FlySky FS-i6 is a great low cost entry level 6-channel 2.4 GHz Transmitter and Receiver that uses solid and reliable Automatic Frequency Hopping Digital System (AFHDS) spread spectrum technology. The FlySky FS-i6 has both a nice quality look and feel, while the programming is simple to use. It also comes with a FS-IA6 6-channel receiver. Suitable for controlling Quadcopters, Multicopter, Heli, and Airplane, the FlySky FS-i6 is a superb budget computer radio for both new pilots and experienced pilots alike! The ultra slim case design ergonomically fits your hands leading to less hand fatigue especially during long flights. Digital trims, backlit LCD screen, and simple programming give the FS-i6 a modern feel with all the features you want. With a low profile antenna, the FS-i6 is easy to store and no worries about breaking it. Adjustable length sticks, and a loop for attaching a neck strap round out the list of comfort features this radio offers. For changing flight modes or multiple flap position options, the FS-i6 has a 3-position switch, as well as two adjustable knobs. Expand the capabilities of your models or just know what is going on with the optional telemetry receivers and variety of sensors. Normally you would have to spend hundreds of dollars to get a transmitter with this capability. Not so with the availability of the FS-i6. Features: -Entry level 6 channel 2.4GHz radio with telemetry capability Dual Rate/Trims/Gear/Flap/Gyro Gain Adjust/Flight Mode/Throttle Hold/Hover Pitch Switches Easy to use Programming & Navigation Buttons Supports Heli/Standard Wing/Elevon/V-Tail 20 Model Memory 8 Character Model Name Trainer and charging ports Backlit LCD Screen displays real-time transmitter and receiver voltage 4 Stick Mode Selectable Mode 2 Comes with receiver FS-i6 Specifications -No. of Channels: 6 Channels Model Type: Glider/Heli/Airplane RF Range: 2.40-2.48GHz Bandwidth: 500kHz Band: 142 RF Power: Less Than 20dBm 2.4ghz System: AFHDS 2A and AFHDS Code Type: GFSK Sensitivity: 1024 Low Voltage Warning: less than 4.2V DSC Port: PS2, Output: PPM Charger Port: No ANT length: 26mm*2 (dual antenna) Weight: 392 gm Power: 6V (1.5AA x 4 Not Included) Display mode: Transflective STN positive type, 128*64 dot matrix VA73*39mm, white backlight. Size: 174 x 89 x 190 mm (LxWxH) On-line update: yes Color: Black Certificate: CE0678, FCC Model Memories: 20 Channel Order: Aileron-CH1, Elevator-CH2, Throttle-CH3, Rudder-CH4, Ch 5 & 6 open to assignment to other functions. FS-IA6 Specifications -No. of Channel: 6 Frequency Range: 2.4055--2.475GHz Band Width Number: 140 Transmitting Power: ≤ 20dBm RF Receiver Sensitivity: -105dBm 2.4G Mode: The second generation of an enhanced version of the automatic FM digital system Encoding: GFSK Antenna Length: 26mm * 2 (dual antenna) Input Power: 4.0-6.5V DCDimension: 47 x 26.2 x 15mm Weight: 14.9g Color: Black Bus Interface: Yes Data Acquisition Interface: Yes Model Type: Airplane / Glider / Helicopter Package Includes: -1 x FlySky FS-i6 2.4G 6CH PPM RC Transmitter. 1 x FS-IA6 receiver Flipkart Internet Private Limited, Buildings Alyssa, Begonia & Clove Embassy Tech Village, Outer Ring Road, Devarabeesanahalli Village, Bengaluru, 560103, Karnataka, India CIN : U51109KA2012PTC066107 Telephone: 1800 202 9898 The return timelines for seller-fulfilled items sold on Amazon.in are equivalent to the return timelines mentioned above for items fulfilled by Amazon. If you've received a seller-fulfilled product in a condition that is damaged, defective or different from its description on the product detail page on Amazon.in, returns are subject to the seller's approval of the return. If you do not receive a response from the seller for your return request within two business days, you can submit an A-to-Z Guarantee claim. Learn more about returning seller fulfilled items. Note: For seller fulfilled items from Books, Movies & TV Shows categories, the sellers need to be informed of the damage/defect within 14 days of delivery. For seller-fulfilled items from Fine Art category, the sellers need to be informed of the damage / defect within 10 days of delivery. These items are not eligible for self-return. The seller will arrange the return pick up for these items. For seller-fulfilled items from Sports collectibles and Entertainment collectibles categories, the sellers need to be informed of the damage / defect within 10 days of delivery. Related Tags Drones/UAV Remotes The FlySky FS-i6 is a great low-cost entry-level 6-channel 2.4 GHz Transmitter and Receiver that uses solid and reliable Automatic Frequency Hopping Digital System (AFHDS) spread spectrum technology. The FlySky FS-i6 has a nice quality look and feel, while also being simple to use. It comes with an FS-IA6 6-channel dual antenna receiver. It is suitable for controlling Quadcopters, Multicopters, RC Helicopters and Airplanes. The FlySky FS-i6 is a superb budget RC transmitter for both new and experienced pilots alike! The ultra-slim case design ergonomically fits your hands leading to less hand fatigue especially during long flights. Digital trims, a backlit LCD screen, and simple programming give the FS-i6 a modern feel with all the features you want. With a low-profile antenna, the FS-i6 is easy to store and no worries about breaking it. Adjustable length sticks and a loop for attaching a neck strap round out the list of comfort features this radio offers. For changing flight modes or multiple flap position options, the FS-i6 has a 3-position switch, as well as two adjustable knobs. Expand the capabilities of your models or just know what is going on with the optional telemetry receivers and a variety of sensors. Normally you would have to spend hundreds of dollars to get a transmitter with this capability. Not so with the availability of the FS-i6. 1 x Flysky FS-i6 RC Transmitter and receiver 1 x User manual booklet Brand Name Flysky Model FS-i6 Bandwidth (KHz) 500 Number of Channels 6 Power 6V (1.5V AA x 4 cells) Transmitting Power ≤ 20dBm Dimension 47 x 26.2 x 15 mm Weight 50 grams When using a drone, a transmitter is one of the most important components. You can't fly a multicopter without it because it uses radio signals to send commands wirelessly to a Radio Receiver, which is connected to an aircraft or multicopter that is being remotely controlled. This is the FlySky FS-i6 2.4G 6CH PPM RC Transmitter With FS-IA6B Receiver. It is a great entry-level radio for those just starting in the field of drones flying. Above all, you get a slim, modern radio transmitter that fits nicely in your hands and weighs just under 400 gm. It won't test your arm stamina on those long flights. This radio is also really practical with a 3-position switch. It has two adjustable knobs for flight modes/ multiple flap positions. You will get the new FS-IA6B receiver with this kit. This is a compact 6-channel receiver with a range exceeding 500m in addition, it comes with a dual antenna for excellent reception and interference rejection capabilities. Each transmitter has a unique ID and so when binding, the receiver remembers this ID and accepts data from that transmitter only. This avoids picking up other transmitter signals and dramatically decreases inference and increases safety. Flysky FS-i6 Specifications and Features : -Entry-level 6 channel 2.4GHz radio with telemetry capability. Dual Rate/Trims/Gear/Flap/Gyro Gain Adjust/Flight Mode/Throttle Hold/Hover Pitch Switches. Easy to use Programming & Navigation Buttons. Supports Heli/Standard Wing/Elevon/V-Tail. 20 Model Memory. 8 Character Model Name. Trainer and charging ports. The backlight LCD screen displays real-time transmitter and receiver voltage. 4 Stick Mode Selectable. Mode 2. It comes with a receiver. 1 x FlySky FS-i6 2.4G 6CH PPM RC Transmitter.
